EDUCATION

Cornell University, College of Agriculture and Life Sciences, Ithaca, NY

B.S. in Environment and Sustainability, Concentration: Policy and Governance

May 2026

Minor: Public Policy • GPA: 3.98

Skills: Qualitative Data Collection and Analysis (NVivo), QGIS, ArcGIS, R Studio

Thesis: “Just here for the ride”: Investigating Community Influence and Meaningful Engagement for Large-Scale Solar Development in New York State

Advisors: Dr. Rich Stedman and Dr. Kathryn Bills Walsh

PAPERS IN PREPARATION

Cerosaletti, A., Chesney, C., Bills-Walsh, K., & Stedman, R. *Local Policy and Agrivoltaics: Evaluating Agrivoltaics Policy Presence, Stringency, and Predictors in Western New York State* (In progress)

Chesney, C., Cerosaletti, A., Bills-Walsh, K., Swanson, T., Stedman, R., and Bessett, D. *What is Just Solar Governance? Procedural vs. Substantive Justice in Utility-Scale Solar Siting* (In progress)

PRESENTATIONS

“Just here for the ride”: Investigating Community Influence and Meaningful Engagement for Large-Scale Solar Development in New York State, Undergraduate Research Symposium (April 2026)

AWARDS AND HONORS

Cornell University, Magna Cum Laude Latin Honors

May 2026

Cornell University, College of Agriculture and Life Sciences Distinction in Research

May 2026

Cornell University, College of Agriculture and Life Sciences Dean’s List

Fall 2022 – Spring 2026

US Ski and Snowboard Association First Team Scholar All-American

March 2023 and March 2025

RESEARCH EXPERIENCE

Research Aide

June 2026 – August 2026

Cornell Center for Conservation Social Sciences, Ithaca, NY

- Conducted and coded 10 hour-long stakeholder interviews about barriers and opportunities to implement Agrivoltaics in Western New York.
- Systematically collected and analyzed municipal/county comprehensive plans, farmland protection plans, solar laws, and codes to understand the presence and stringency of Agrivoltaic policy.
- Curated database of local policies and laws, and developed a statistical model to test predictors of policy presence and stringency.

Undergraduate Research Assistant

June 2024 – May 2026

Cornell Center for Conservation Social Sciences, Ithaca, NY

- Compiled a database on solar energy projects in NYS to support study site selection to evaluate landowner willingness to host agrivoltaic (dual land use for solar and agriculture) systems and solar development perceptions.

- Conducted independent research in pursuit of a Senior Honors Thesis on perceptions of solar development community engagement processes in NYS. Engaged in 16 hour-long stakeholder interviews, and completed document analysis for news articles and meeting minutes. Coded stakeholder interviews and media documents.

Undergraduate Research Assistant

June 2024 – July 2025

Goebel Lab, Cornell Department of Natural Resources, Ithaca, NY

- Classified/recorded trees and completed field measurements to track forest changes over time as a part of ongoing research and to prepare a forest plot for the Smithsonian ForestGEO network.

PROFESSIONAL EXPERIENCE

Electricity Policy Intern

Clean Air Task Force, Remote

September 2026 – Present

- Supporting Clean Air Task Force's electricity team on research projects related to state policy configurations for Clean Electricity Standards/Renewable Portfolio Standards.

US Power Sector Decarbonization Intern

June 2025 – August 2025

Environmental Defense Fund, Washington, D.C.

- Collected and analyzed research on data center water use for cooling and electricity generation.
- Summarized webinars and hearings on western energy grid regionalization, clean firm energy deployment, and artificial intelligence policy.
- Researched utility Integrated Resource Plans to update decarbonization advocacy database. Briefed supervisor on pertinent state-level data center policies.

Legislative Intern

August 2024 – December 2024

Office of Senate Majority Leader Charles E. Schumer, Washington, D.C.

- Collaborated with press interns to track environment and energy related topics on X (Twitter) to inform staffer policy discussions.
- Summarized legislative hearings in memos and responded to constituent phone calls. Gave tours of the U.S. Capitol to visitors.

Ithaca Carbon Neutrality 2030 Team Member

September 2023 – August 2024

Cornell University Sustainable Design, Ithaca, NY

- Collaborated with the City of Ithaca, local stakeholders, and team members to research municipal composting and energy policy and make a policy recommendation contributing
